

I love you

Almost 1 year na tayo loms! This might not be a hand-written love letter but it is composed of all my love thoughts about our relationship. To start, I know marami pa ako need improve sa sarili ko and sa relationship natin. Marami din pa tayong pagdadaan in the near future. I hope na tumagal tayo and tumanda tayo together. Who would have thought na sa simpleng valorant game, magkakaroon ng special something. I really love you loms. Sobrang thankful ako sa relationship natin cause ang dami kong natutunan from you. I really wish na hindi ka mapagod sa akin. Sobrang thankful ko na nakilala kita because you showed me how to love again. Sobrang thankful din ako sa mga efforts mo, sa pag support mo sa akin when I'm on my lowest, sa time na binibigay mo sa akin and all. I'm very lucky to have a loving and understanding girlfriend. I maraming lalaki diyan na mas gwapo, mas mayaman, mas planned sa buhay and mas matured but you still choose to be with me every day. I love, loved and will always love you. I love you in every universe. <3

PS: Let's meet soon omkii? I miss you na :(
PSS: Mag aassume ako here na nabasa mo na yung apology letter and napatawad mo na ako.

Sincerely,
Bryan
